Personnel Register Introduction

23/11/2024

This book has been compiled by entering everyone who is listed in the Company Theatre production programmes from 1980 until the 40th anniversary 2020. There are quite a few programmes missing. The compiled tables include some 4,387 entries with some 971 names.

Names have been a challenge as the programmes are not always checked properly for the spelling before printing and there are so many variations of peoples names. A lot of time has been spent in attempting to correct these errors, and a few mistakes on data entry, but there are sure to be a few errors left in this book. Ladies maiden and married names have been left as they were in the programme.

The main register of names are in the order of first names as this is the most commonly remembered name. There is also a section added with the names sorted by the last name so this can be used as a cross reference. As there are only 7 years that have recorded committee members, no data of committee personnel is included.

Any errors needing correction or programmes found please contact Scott Thomas - scott@crestdesign.co.nz There will only be one revision of this book.
